

# White Lies

## Mr Hudson

Lying, I still can't find the truth  
So I spin another line on you  
You can't blame a fella for trying I'm hoping you eat my every word  
Doesn't it taste so good?  
But deep inside I'm dying Oh, I wanna word with you  
If there's never a perfect time  
It's time for another white lie White lies, just a little white lie  
I did it to get close to you  
And I will tell a million more White lies, just a little white lie  
I do it to get close to you  
And I will tell a million more white lies  
One day I know you'll understand  
That I didn't really have much choice  
I just had to hide it Sometimes good men do bad things  
Just as bad men can do good  
Tell me which way you like it Oh, I wanna word with you  
There's never a perfect time  
However much I try, try, try, try Oh, why don't you sit yourself down?  
'Cause we gotta talk this through  
It's time for another white lie White lies, just a little white lie  
I did it to get close to you  
And I will tell a million more White lies, just a little white lie  
I do it to get close to you  
And I will tell a million more white lies  
Oh, oh, I was just playing, girl  
I was just playing by your rules  
Oh, oh, oh, just a little white lie  
And I'll tell a million more White lies, just a little white lie  
I did it to get close to you  
And I will tell a million more White lies, just a little white lie  
I do it to get close to you  
And I will tell a million more White lies, just a little white lie  
I did it to get close to you  
And I will tell a million more White lies, nothing but a white lie  
I do it to get close to you  
And I will tell a million more white lies
