

Take Care

Jennifer Lopez

You know you know
You know that I love you
I love you
You know you know
You know that I need you
I need you I need my baby like I need air
I need air
I need my baby cause he take me there
Take me there
Only thing my baby said
Baby what you want
What you want
Want want
Give me what I want
Yeah yeah
My baby take care yeah
You are my man and my friend you are my everything I need
Everything I need everything I need
And I love you I really really love you
My baby put it down in a bed bed bed in a bed bed bed
My baby hit the nail on the head head head on the head head head
My baby's doing his thing feels so good good good
Yeah yeah
My baby take care
Take care I need my baby like I need air
I need air
I need my baby cause he take me there
Take me there
Only thing my baby said
Baby what you want
What you want
Want want
Give me what I want
Yeah yeah
My baby take care yeah
You are my man and my friend you are my everything I need
Everything I need everything I need
And I love you I really really love you
I need air I need air
Take me there take me there
Take me there take me there take me there
