

One More Hit

Alison Wonderland

You wanted to work it
And this is the pressure you give me
I'm trying to make it
Is this what you're seeing
It's always the sweetest
To let me defeat it
And all of this small talk
Then why do you need it
Give me air
We breathe it
I don't care
We need it
One more hit, yeah
One more hit, yeah
One more hit
You need it
It's knowing your choices
Forgetting my voices
So bring all your forces
Silence all the noises
I'll smile if I have to
So try believe it
I'll never hold on to
The way they see it
Give me air
We breathe it
I don't care
We need it
One more hit, yeah
One more hit, yeah
One more hit
You need it
