

Home We'll Go (Take My Hand)

Walk Off the Earth & Steve Aoki

Don't let your head hang low
You've seen the darkest skies I know
Let your heart run child like horses in the wild
So take my hand and home we'll go
The sun it glows like gold
Feeling warm as a burning coal
Let your soul shine bright like diamonds in the sky
So take my hand and home we'll go
Home we'll go, home we'll go
Home we'll go, home we'll go
It's a long road, but we're not alone
Together we stand and we're coming home
It's a long road, but we're not alone
Together we stand and we're coming home
Don't let your head hang low
You've seen the darkest skies I know
Let your heart run child like horses in the wild
So take my hand and home we'll go
Home we'll go, home we'll go
