You're Not Alone (feat. Kiiara)

Don Diablo

This time, this time

You're not alone

On this long and winding roadFar from home

Far from home

This time, this time

You're not on your own

And though it's dark and cold deep down

Walk alone

Walk alone

You're not alone

This time, this time

You're not alone

This time, this time

You're not on your ownThis time, this time

You're not alone

On this long and winding road

Far from home

Far from home

This time, this time

You're not on your own

And though it's dark and cold deep down

Walk alone

Walk alone

You're not alone You're not alone This time, this time

You're not alone

This time, this time

You're not on your ownYou're not alone
