

# Keep Shining

## Redfoo

We gon' go as far as we can go  
Nobody knows how it all turns out  
We promise to party out of control  
We gon' keep shining 'til the sun burns out  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining 'til the sun burns out  
We gon' keep shining 'til the sun burns out I'm walking in the club like every night  
If you're hating on me, you must be in the line  
I been on my grind, now it's my time  
To kick back and enjoy this vodka and lime  
Yo, I got my Party Rock crew, we raging  
Shuffle bot cute and the b-boy stance amazing  
Got a beat that rocks the basement  
Industry that tries to chase me  
When it's me, I'm only racing  
So you see I'm first place, man  
I know we at the club tonight  
Good vibes and we feeling right  
Everybody, raise your shots  
Cause this is what we do when we party rock  
Eoh, oh, oh, oh, oh, oh, oh.  
This is what we do when we party rock  
Let's go!  
We gon' go as far as we can go  
Nobody knows how it all turns out  
We promise to party out of control  
We gon' keep shining 'til the sun burns out  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining 'til the sun burns out  
I'm like that long shot, 30 to 1, strong slot  
Never heard it come, but I'm gon' pop  
Now I'm earning some and it won't stop  
Won't stop, can't stop, the man's hot  
#1 in the dance spot, yo  
#2 is the place for you if you're racing Foo, face it dude  
I like to shock ya, rock ya, drink some vodka  
Shots up to my crew and you and to my Foo fans  
Move into the movement, groove into the smooth synth

The sees a deep abyss, I keep a fist pumping  
And the bass thumping, and I see your hands up in the air  
We got this place jumping, taking these shots like we don't care  
Yo, it's all good, she wants it all wood  
I see some cuties with booties, I think we all shouldI know we at the club tonight  
Good vibes and we feeling right  
Everybody, raise your shots  
Cause this is what we do when we party rockWe gon' go as far as we can go  
Nobody knows how it all turns out  
We promise to party out of control  
We gon' keep shining 'til the sun burns out  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining 'til the sun burns outI know we at the club tonight  
Good vibes and we feeling right  
Everybody, raise your shots  
Cause this is what we do when we party rock  
This is what we do when we party rockWe gon' go as far as we can go  
Nobody knows how it all turns out  
We promise to party out of control  
We gon' keep shining 'til the sun burns out  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining, shining, shining  
We gon' keep shining 'til the sun burns out
