

Heads Up

Jain

Heads up for the light
Where we never die
Under the moonlight
We start to unfightHeads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for loversHeads up for the light
Where we never die
Under the moonlight
We start to unfightHeads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for lovers
Heads up all the way
Cause it's too late to be afraid
There's no time to rest
I wanna go and see what's next
I see colors all around
I try to take them one by one
I try to put them on my mind
I won't forget how they areTime for me to see how much beauty this can be
If only I wasn't so scared of how people can be
It's time for me to try to keep all of my dreams awake
Away from the fear, from the hate we've madeHeads up for the light
Where we never die
Under the moonlight
We start to unfight
Heads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for loversHeads up for the light
Where we never die
Under the moonlight
We start to unfightHeads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for loversHeads up on a row
All the stars begin to blowTearing away all the shadow
Scaring us, scaring YoI wanna dance on my way home
I wanna see a friend in town
No more shame, no more pain
It's always free to give a chanceTime for me to take all the way African XXX

It's all differences that make the richness of our soul
It's time to walk around and try to find a sound
Way up near the cloud and way down in the ground
Heads up for the light
Where we never die
Under the moonlight
We start to unfight
Heads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for lovers
Heads up for the light
Where we never die
Under the moonlight
We start to unfight
Heads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for lovers
Let's see for everybody now
Let's see for everybody now
Let's see for everybody now
Heads up for the light
Where we never die
Under the moonlight
We start to unfight
Heads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for lovers
Heads up for the light
Where we never die
Under the moonlight
We start to unfight
Heads up for this time
Where fear's not a leader
Where open mind is stronger
Life is for lovers
