Feel Good (feat. Daya)

Gryffin & Illenium

Yeah I doubt I doubt myself And I'm too proud to ask for help When you see me beside myself I don't have to explain it, baby Yeah I'm over picking fights And trying to mend it with the high Don't wanna know that I'm not right I know that I've been lately, lately Yeah, sometimes I need someone to pick you up Overdose my mind with the things I love You can take me there When my heart beats, when my heart beats free Take my hand in the middle of a crisis Pull me close show me baby where the light is I was scared of a heart I couldn't silenced But you make me you make me feel good I like it Take my hand in the middle of a crisis Pull me close show me baby where the light is I was scared of a heart I couldn't silenced But you make me you make me feel good I like it But you make me you make me feel good Yeah I get over-overwhelmed When all these problems burn like hell Maybe I just need a friend Who never calls me crazy, crazy You pull me off the front line before I run Keep me cool but not get overdone You can take me there When my heart speaks, when my heart speaks free Take my hand in the middle of a crisis Pull me close show me baby where the light is I was scared of a heart I couldn't silenced But you make me you make me feel good I like it Take my hand in the middle of a crisis Pull me close show me baby where the light is I was scared of a heart I couldn't silenced But you make me you make me feel good I like it But you make me you make me feel good I like it You make me you make me feel good Taking the weights off To help with the pressure And I was here stressing

Thinking it mattered
Been with you for hours but it feels like seconds
It takes me moments and I'm in heaven
It takes me moments and I'm in heaven oh
You make me feel good
You make me feel good
You make me you make me feel good I like it
Take my hand in the middle of a crisis
Pull me close show me baby where the light is
I was scared of a heart I couldn't silenced
But you make me you make me feel good I like it
