

Think of You

Reeve Carney

When I'm lost, you bring me back
When I cry, you make me glad
When I think I have it bad
I think of You When I don't know where to go
And I feel like I'm alone
When I hang my head down low
I think of You Each night You wait outside my door
Cause You want to know, I think of You...
When I fall into a snare
And it's all too much to bear
When I think nobody cares
I think of You When the going's getting tough
And I feel like giving up
When I think I've had enough
I think of You You've always been and You'll always be
Even to the end, I'll think of You You are the Way, the Truth, and the Life
And I'll follow You...
When it's time to say goodbye
And a tear wells in my eye
I can hold my head up high
When I think of You My flesh is weak, but Your Spirit wills
That my heart and mind, will think of You
