

# Better Together

## Fifth Harmony

When we were together  
We were just strangers  
I was just playing around  
So I didn't wanna work it out  
Yeah, I didn't wanna work it out Got something else missing  
We were too different  
Baby I've been looking back now  
I really should've worked it out  
Yeah, I really should've worked it out Because now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I  
Boy I miss you  
Said I really do  
Boy I miss you  
You don't understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
You don't understand that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
Watching you wake up  
Thinking I had you  
I was like I was so dumb  
Boy I should've known that you're the one  
Yeah, I should've known that you're the one So if it's not too late I just wanna know  
It's me baby, we could still run Because I finally know that you're the one  
Yeah, I really know that you're the one Because now that you're gone and I sleep alone I can't  
help it, I want you back, 'cause I  
Boy I miss you  
Said I really do Boy I miss you  
You don't understand that we're better together  
Boy I miss you

Said I really, really do  
Boy I miss you  
You don't understand that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
And now that you're gone and I sleep alone  
I can't help it, I  
want you back, 'cause I  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
Boy I miss you  
Said I really do  
Boy I miss you  
You don't understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
You don't understand that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together
