

# Sleepwalker

Adam Lambert

I saw a picture of you  
hanging in an empty hallway  
I heard a voice that I knew  
and I couldn't walk away  
It took me back to the end  
of everything  
I tasted all, I tasted all the tears, again  
Outside the rain's pouring down There's not a drop that hits me  
Scream at the sky but no sound is leaving my lips  
It's like I can't even feel  
after the way you touched me  
I'm not asleep  
But I'm not awake  
After the way you loved me  
I can't turn this around  
I keep running into walls that  
I can't break down  
I said, I just wander around  
with my eyes wide shut Because of you  
I'm a sleepwalker  
walker, walker I'm a sleepwalker walker, walker  
Let me out of this dream  
Everywhere that I go  
It's like another memory  
And all the places we used to know  
They're always there to haunt me  
I walk around and I feel  
so lost and lonely  
You're everything that I want  
But you don't want me  
I, I, I, I, I, can't turn this around  
I keep running into walls that I can't break down  
I said, I just wander around With my eyes wide shut Because of you  
I'm a sleepwalker walker, walker  
I'm a sleepwalker  
walker, walker  
Let me out of this dream  
Oh this dream  
Let me out of this dream  
Oh, yeah yeah  
Oh, I can't turn this around I keep running into walls  
I can't wake up

I said I just wander around with my eyes wide shut  
Because of you  
I'm a sleepwalker  
walker, walker, yeah  
I'm a sleepwalker  
walker, walker  
I'm a sleepwalker  
walker, walker  
I'm a sleepwalker  
walker, walk on, yeah  
Let me out of this dream
