## **Blue Heaven Midnight Crush**

## **Betty Who**

Tonight, I'm caught in a feeling Can't get you off my mind, you're in my body And I, I can't keep it a secret

Forgive me if I said too much, I'm sorryBut it feels like I've been falling forever Just hoping, praying we'd be togetherDon't you know I got a blue heaven midnight crush? You know it's bad when it's a blue heaven midnight crush

Yeah, I'm in trouble 'cause a look never hurt this much

I got it bad, and you're my blue heaven midnight crushI got it bad, and you're my blue heaven midnight crush

I got it bad, and you're my blue heaven midnight crushMy love, tell me what you're thinking 'Cause one way or the other, I can take it

'Cause I, I'm so tired of dreaming

You hold my hand, and I forget to fake it

'Cause it feels like I've been falling forever

'Cause we're more than friends, we're perfect togetherDon't you know I got a blue heaven midnight crush?

You know it's bad when it's a blue heaven midnight crush

Yeah, I'm in trouble 'cause a look never hurt this much

I got it bad, and you're my blue heaven midnight crushI got it bad, and you're my blue heaven midnight crush

I got it bad, and you're my blue heaven midnight crushYou're like a fire on a summer night

Or getting caught in the rain

Or going 80 on the highway

'Cause you're driving me insaneYou're like a fire on a summer night

Or getting caught in the rain

Or going 80 on the highway

And I think you feel the same

Don't you know I got a blue heaven midnight crush?

You know it's bad when it's a blue heaven midnight crush

Yeah, I'm in trouble 'cause a look never hurt this much

I got it bad, and you're my blue heaven midnight crush
