

# Face 2 Face

## Mandisa

Some days, I dream about Heaven  
And some days, I wonder what it's gonna be like  
When I'm leaving behind  
The pain of this life  
And sin is just a memory  
'Cause one day I'll get to look You in the eyes  
I can't wait to be where You are  
Close enough to feel Your heart  
With You, my Savior  
I'm learning that the world I know  
Is never gonna feel like home  
'Til I'm face 2 face  
With You, my Savior  
Some days, the world is just too much to take  
And some days, I'm barely hanging by a thread  
But I won't let all of my fear, cripple me here  
When I should be rejoicing  
'Cause I know the beauty that waits ahead  
I just wanna be where You are  
Close enough to feel Your heart  
With You, my Savior  
I'm learning that the world I know  
Is never gonna feel like home  
'Til I'm face 2 face  
With You, my Savior  
We'll sing Holy, Holy, Holy is the Lord  
Like a sea of voices praising Your name  
Every nation, every tongue, will bring You glory  
And we will worship You, our God, Face 2 face  
I can't wait to be where You are  
Close enough to feel Your heart  
With You, my Savior  
I'm learning that the world I know  
Is never gonna feel like home  
'Til I'm face 2 face  
With You, my Savior  
Can't wait to be with You
