

# Madiba Riddim

Drake

I cannot tell who is my friend  
I need distance between me and them  
Gonna have to teach me how to love you again  
God knows I'm trying  
God knows I'm trying for you  
God knows I'm trying God knows it  
Your mind impure, soul I possess, he knows it  
Anointed and protected, I was chosen  
My heart is way too frozen to get broken I seen man turn fool for the money  
One too many times  
I seen some girls turn they back  
On they best friend from time  
I heard you say things that you can't take back, girl, no time  
I need you to go easy now and fix up one time  
I cannot tell who is my friend  
I need distance between me and them  
Gonna have to teach me how to love you again  
God knows I'm trying  
God knows I'm trying for you  
God knows I'm trying People change, I'm not surprised  
Devil's working overtime  
Voodoo spells put on my life  
It won't work, they all have tried I seen man turn fool for the money  
One too many times  
I seen some girls turn they back  
On they best friend from time  
I heard you say things that you can't take back, girl, no time  
I need you to go easy now and fix up one time  
I cannot tell who is my friend  
I need distance between me and them  
Gonna have to teach me how to love you again  
God knows I'm trying  
God knows I'm trying for you  
God knows I'm trying You put food on the table for me, aye?  
Alright, fam, soft. I see you, aye?  
You pay my bills, right?  
It's light  
You're a wasteman
