

Unbreakable

Shane Filan

She finds it hard to trust someone
She's heard the words 'cause they've all been sung
She's the girl In the corner
She's the girl nobody loved
But I can't, I can't, cant stop thinking bout you everyday
And you can't, you can't, you can't listen to what people say
They don't know you baby
Don't know that you're amazing but I'm here to stay I'm here to stay
yeah
when you lose your way and the fight is gone
Your heart starts to break and you need someone around now
Just close your eyes while I put my arms around you
And make you unbreakable
She stands in the rain, Just to hide it all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile then put my arms around you
And make you unbreakable
'Cause she's the girl that I never had She's the heart that I wanted bad
The song I heard on the radio
That made me stop and think of her And I can't, I can't, I can't concentrate anymore
And I need, I need, need to show her what her heart is for
It's been mistreated badly
Now her world has started falling apart Falling apart
when you lose your way and the fight is gone
Your heart starts to break
And you need someone around now Just close your eyes while I put my arms around you
And make you unbreakable
She stands In the rain, just to hide it all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile then put my arms around you
And make you unbreakable
She stands in the rain, just to hide it all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile then put my arms around you
And make you unbreakable
I can't walk away 'till your heart knows
That it's beautiful. oh. I hope you know
It's beautiful
When you lose your way and the fight is gone

Your heart starts to break
And you need someone around now Just close your eyes while I put my arms around you
And make you unbreakable
She stands in the rain. Just to hide It all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile then put my arms around you
And make you unbreakable
