Memories

Shawn Mendes

When I wake up to your footsteps As you get up out of bed They make a song that sounds so simple But it dances in my headA melody so perfect That it gets me through the day And the thought of us forever Is one that won't ever go away All I need to know is Where to stop Take my hand and show me forever Never will I ever let you go So let's hold on together To this paper and this pen And write down every letter To every word we've ever said All I need to know is Where to stop Take my hand and show me forever As never will I ever let you goLet's write our story And let's sing our songs Let's hang our pictures on the wall All these precious moments That we carved in stone Are only memories after allMemories after all Memories after all You know, you gave me hope But I've got to let go I've got to let go It's taking it's toll Deep in my soul Now I've got to let go We wrote our story And we sang our songs We hung our pictures on the wall Now those precious moments That we carved in stone Are only memories after all Memories after all Song Discussions is protected by U.S. Patent 9401941.
