

Let It Shine

Glenn Hughes

Out in the oneness, in the zone
High on a tide I'm not alone
And everywhere that I do go
No matter where I roam, I make it my home I wanna know now how do you feel?
Let it shine
You gotta grow now you got to heal
Let it shine
I wanna know now how do you feel?
Let it shine
You gotta grow now you got to heal
Let it shine
I walk through darkness with my shield
There's a light out in the field
Sometimes quick and sometimes slow
I wanna be overcome
In my Babylon I wanna know now how do you feel?
Let it shine
You gotta grow now you got to heal
Let it shine
I wanna know now how do you feel?
Let it shine
You gotta grow now you got to heal
Let it shine You wanna let it, you wanna let it
Shine, yeah!
Ohhh, yeah,...shine for me! When you're not around, I'm lockin' my home
I wanna know now how do you feel?
Let it shine
You gotta grow now you got to heal
Let it shine
I wanna know now how do you feel?
Let it shine
You gotta grow now you got to heal
Let it shine
