

# Adrenaline

## The Gathering

what makes you forget is the structure  
you're in, all your life  
can't you feel there is the animal inside  
growing roots, still, inside your mind suppress your underbeing and let them rule  
you don't care, yeah you don't give a damn  
as long as you've got your car  
do you actually go so far, as giving in your  
adrenaline away
