

Overdose

Jason Derulo

Let me love you till I overdose
The time we spent blazing my head like a rocket
You got me up, I put it down it gets better
I tried a million ways to see, it was too hard, too hard
Your body's banging, like 808's and hammers knocking
I wake up sayin' I need you baby I was lost when
You tried to tell me I was fine, right from the start, the start
Ohh you got the room spinnin'
I don't wanna lose this feeling
Girl you get me high, you know just what I like
And I want some more, I want some more
So let me overdose
Cause I'm feenin' for your touch
Let me overdose
Cause baby I can't get enough
Let me overdose
it's so good
But your love is just too much, Your love is just too much
Let me love you till I overdose
Let me love you till I overdose
Let me love you till I overdose
My life's a mess but no regrets you are the lead
My favorite drug I need a fix can you help me?
I tried a million ways to quit,
It was too hard, too hard baby ohh you got the room spinnin' (the room spinnin')
I don't wanna lose this feeling (no, no, no babe)
Girl you get me high, you know just what I like
And I want for more, I want some more
(so let me) So let me overdose
Cause I'm feenin' for your touch
Let me overdose
Cause baby I can't get enough
Let me overdose
it's so good
But your love is just too much,
Your love is just too much
Ain't no rehab (rehab)
Gonna take what we have (we have)
What we have (we have) is good
Ain't no rehab (rehab)
Gonna take what we have (we have)
Cause what we have (we have) is good
So let me overdose (overdose)
Cause I'm feenin' for your touch
Let me overdose (yeah baby)
Cause baby I can't get enough

Let me overdose, it's so good
But your love is just too much (too much)
Your love is just too much (too much)(brake down) Let me love you till I overdose
(yeah) Let me love you till I overdose
(till I, till I) Let me love you till I overdose
