

# Lost

## Dido

I walked down and see path  
My shadows fall behind  
And rest beneath a tree  
Somewhere for me And lost where I belong  
Lost, where I've gone  
And lost is my new home  
Lost, where I belong And usually darkness gets to me  
This place is mine  
And know I dare won't let me to  
More piece and hold Just in blue she takes me through  
No doubt for me  
To follow right behind the sun  
It's blinding and I can't see  
And lost where I belong  
Lost, where I've gone
