

Louder

Neon Jungle

Stepping outside my head, I don't wanna hear what you said
I don't wanna fall down flights of stairs, trip wires everywhere
I'm climbing, tryna get from under you
If you ask me back I'll go, I need distractions
So pull every pin from every grenade and blow it all up in my face Make everything louder
Do it till my skin vibrates
Make everything louder
I wanna hear my eardrums break
More volts in the system
Drown out the symptoms
Everything louder, louder
I don't wanna listen just wanna feel it, feel it
Louder, louder
Put me in a soundproof room a million miles from you
My ears would still be bleeding
Shots of noise still seeping through I wish I couldn't hear you
So pull every pin from every grenade and blow it all up in my face Make everything louder
Do it till my skin vibrates
Make everything louder
I wanna hear my eardrums quake (ring ring yeah)
More volts in the system
Drown out the symptoms
Everything louder, louder
I don't wanna listen just wanna feel it, feel it
Louder, louder You got the power, you got the power
You know the words that work, you know the words that work on me
You got the power (you got the power)
You got the power (yeah you got the power)
You know the words that work, you know the words that work on me (that work on me, that
work on me)
Make everything louder
Do it till my skin vibrates (vibrates)
Make everything louder
I wanna hear my eardrums quake
More volts in the system
Drown out the symptoms
Everything louder, louder
I don't wanna listen just wanna feel it, feel it
Louder, louder
Louder, louder
Louder, louder (break br- br- break it)
Louder, louder (power)

Louder, louder.
