

# Fire Meet Gasoline

Sia

It's dangerous to fall in love  
But I want to burn with you tonight  
Hurt me  
There's two of us  
We're certain with desire  
The pleasure's pain and fire  
Burn me So come on  
I'll take you on, take you on  
I ache for love ache for us  
Why don't you come  
Don't you come a little closer  
So come on now  
Strike the match, strike the match now  
We're a perfect match, perfect somehow  
We were meant for one another  
Come a little closer Flame that came from me  
Fire meet gasoline  
Fire meet gasoline  
I'm burning alive  
I can barely breathe  
When you're here loving me  
Fire meet gasoline  
Fire meet gasoline  
I got all I need  
When you came after me  
Fire meet gasoline  
I'm burning alive  
And I can barely breathe,  
When you're here loving me Fire meet gasoline  
Burn with me tonight  
And we will fly Like small sparks in the skies  
I mean I want to try and  
Take a bite So come on now Strike the match, strike the match now  
We're a perfect match, perfect somehow  
We were meant for one another  
Come a little closer Flame that came from me  
Fire meet gasoline  
Fire meet gasoline  
I'm burning alive  
I can barely breathe  
When you're here loving me  
Fire meet gasoline

Fire meet gasoline  
I got all I need  
When you came after me  
Fire meet gasoline I'm burning alive  
And I can barely breathe,  
When you're here loving me  
Fire meet gasoline  
Burn with me tonight But it's a bad death  
Certain death  
But I want what I want  
And I got to get it  
When the fire dies  
Dark in the skies  
Hot as a match  
Only smoke is left  
But it's a bad death  
Certain death But I want what I want  
And I got to get it  
When the fire dies  
Dark in the skies  
Hot as a match  
Only smoke is left Flame that came from me  
Fire meet gasoline  
Fire meet gasoline  
I'm burning alive  
I can barely breathe  
When you're here loving me  
Fire meet gasoline  
Fire meet gasoline  
I got all I need  
When you came after me  
Fire meet gasoline  
I'm burning alive  
And I can barely breathe,  
When you're here loving me  
Fire meet gasoline  
Burn with me tonight  
Burn with me tonight  
Burn with me tonight  
Burn with me tonight  
Eh, eh
