

Pretty Girl (The Way)

Sugarcult

Pretty girl is suffering,
while he confesses everything,
pretty soon she'll figure out,
what his intentions were about,
and that's what you get for falling again,
you can never get him out of your head,
and that's what you get for falling again,
you can never get him out of your head,
It's the way that he makes you feel,
it's the way that he kisses you,
it's the way that he makes you fall in love,
She's beautiful as usual,
with bruises on her ego and,
killer instinct tells her to,
be aware of evil men,
And that's what you get for falling again,
you can never get him out of your head,
and that's what you get for falling again,
you can never get him out of your head,
It's the way that he makes you feel,
it's the way that he kisses you,
it's the way that he makes you fall in love,
it's the way that he makes you feel,
it's the way that he kisses you,
it's the way that he makes you fall in love (love),
Pretty girl (x2)
pretty girl is suffering,
while he confesses everything,
pretty soon she'll figure out,
you can never get him out of your head,
It's the way that he makes you cry,
it's the way that he's in your mind,
it's the way that he makes you fall in love,
it's the way that he makes you feel,
it's the way that he kisses you,
it's the way that he makes you fall in love (love),
