## BENI

I wake up just to find the empty space  
I try to get to sleep again and imagine you're here  
I thought I heard you whispering my name I try to reach my arms to you but you're not  
there Then I realize it's just a dream  
I have to face another day, the night is over  
Sun shines through my window now I see  
I have to face the truth again that you're really gone How should I know why everything's the  
same  
When I can't hold you, kiss you, hear you say you love me too  
There's no way that I could erase all the memories of you  
I keep inside, all of the time  
'Cause they show how I'm still in love with you  
Your love's forever  
Everytime I close my eyes I can see you by my side  
Tell me babe, what else can I do?  
It doesn't bother me at all how many seasons fall  
You'll always be here in my heart If you ever asked me to, someday  
Maybe I'd be strong enough to get over you  
I'd rather spend my nights and my days  
With all the pain and the regret just crying over you How should I understand how life goes on  
Without you I won't last a day  
Remember how we used to pray  
I wish that I could just forget and set my heart free  
Although I tried, I don't know why  
I'm falling deeper in love with you  
I wish forever  
Everytime I close my eyes I can see you by my side  
Tell me babe, what else can I do?  
It doesn't bother me at all how many seasons fall  
You'll always be here in my heart Your love's forever Everytime I close my eyes I can see you  
by my side  
Tell me babe, what else can I do?  
It doesn't bother me at all how many seasons fall  
You'll always be here in my heart I close my eyes and try to find  
The traces of your love so kind  
Tell me baby, what else can I do?  
Love will never fade away  
That's just what you would say  
I know we'll never be apart You'll always be here in my heart
