

Screw & Brew (feat. MIST)

Mostack

Chilling with some shottas and 'ooters
Who you got in your crew?
Bruddas wanna screw & brew
MIST told me, what did we do? Yeah niggas wanna brew about the language
Why? Cause I grew with the akhis
In a room where the Mac and the rack is
Yeah, niggas get yacked for your package, yacked for your package
Wan' brew about this karla
Why? Cause I grew with the apnas
In a room with a Mac from the Gaza
Yeah, niggas get yacked for your danas, yacked for your danas
When we come through, what happens?
Niggas step back, why? Because they see us in a jet black
And we don't catch feelings
We just catch flights and get jet lagged
Go call your brudda we just get straps
Came through with the cheese uh
MIST came through smelling of sativa
I'm chilling with some real drugga' dealers
And I got more shooters than FIFA
I like to strap with raws
Sold out, bookings and tours (bookings and tours)
I remember days being broke
I was sleeping on my bedroom floor I remember life was an issue
Tears for the tissue
Your boy's a star now, it's official
See, like oh you're the guy that make "niggas ain't the same"
Na boo boo, I think you got your rappers in a pickle
Yeah niggas wanna brew about the language
Why? Cause I grew with the akhis
In a room where the Mac and the rack is
Yeah, niggas get yacked for your package, yacked for your package
Wan' brew about this karla
Why? Cause I grew with the apnas
In a room with a Mac from the Gaza
Yeah, niggas get yacked for your danas, yacked for your danas All I have is notes on me bro,
lend me a pound
Mist always smellin' like ounce
You act up when gyal are around, I just grab the gyal and bounce
Different girls, different continents
Ugly boy, ain't used to the compliments
Five figures really gave me confidence

Ride for my nigga, what's the consequence?
 Uh, I've had beef and wars
 Rid for my brothers, of course
 New gyal on my iPhone 6
 Old gyal on my iPhone 4 I remember life was an issue
 Tears for the tissue
 Your boy's a star now, it's official
 See, like oh you're the guy that make "niggas ain't the same"
 Na boo boo, I think you got your rappers in a pickle Yeah niggas wanna brew about the language
 Why? Cause I grew with the akhis
 In a room where the Mac and the rack is
 Yeah, niggas get yacked for your package, get yacked for your package

 Why? Cause I grew with the apnas
 In a room with a Mac from the Gaza
