

# I Will Be Here

Steve Winwood

Cry - you would cry in my arms  
Far from the world and its harm  
That kind of love begun  
Is never done  
I'll be here at the close of the day  
When you bring your heart home to stay I will be here  
When you call  
I will be here  
Standing tall  
I will be here  
You won't fall  
Don't you know that love will save us after all  
Come - when cold winter blows  
Come - when sweet summer glows  
And all your wandering years  
Will disappear  
There are places inside the heart  
We'll touch like we've done from the start I will be here  
When you call  
I will be here  
Standing tall  
I will be here  
You won't fall  
Don't you know that love will save us after all  
I will be here  
When you call  
I will be here  
All in all  
I will be here  
You won't fall  
Love will save us after all Almighty time rolls on  
Let's not spend it all alone  
We are here  
Then we're gone I will be here  
When you call  
I will be here  
Standing tall  
I will be here  
You know that love will save us after all
