

Thrive

Switchfoot

Been fighting things that I can't see it
Like voices coming from the inside of me and
Like doing things I find hard to believe in
Am I myself or am I dreaming? I've been awake for an hour or so
Checking for a pulse but I just don't know
Am I a man when I feel like a ghost?
The stranger in the mirror is wearing my clothes No, I'm not alright
I know that I'm not right
A steering wheel don't mean you can drive
A warm body don't mean I'm alive
No, I'm not alright
I know that I'm not right
Feels like I travel but I never arrive
I wanna thrive not just survive
I come alive when I hear you singing
But lately I haven't been hearing a thing
I get the feeling that I'm in between
A machine and a man who only looks like me
I try and hide it and not let it show
But deep down inside me I just don't know
Am I a man when I feel like a hoax?
The stranger in the mirror's wearing my clothes No, I'm not alright
I know that I'm not right
A steering wheel don't mean you can drive
A warm body don't mean I'm alive
No, I'm not alright
I know that I'm not right
Feels like I travel but I never arrive
I wanna thrive not just survive
I'm always close, but I'm never enough
I'm always in line, but I'm never in love
I get so down, but I won't give up
I get so down, but I won't give up I get so down, but I won't give up
Been fighting things that I can't see it
Like voices coming from the inside of me, yeah
Like doing things I find hard to believe in
Am I myself or am I dreaming?
Am I myself or am I dreaming?
Am I myself or am I dreaming?
Thrive, thrive, thrive, yeah, thrive
No, I'm not alright
I know that I'm not right A steering wheel don't mean you can drive

A warm body don't mean I'm alive
No, I'm not alright
I know that I'm not right
Feels like I travel but I never arrive
I wanna thrive not just survive
I wanna thrive not just survive
Yeah yeah
Feels like I travel but I never arrive
I wanna thrive not just survive
I wanna thrive not just survive
I wanna thrive not just survive
Feels like I travel but I never arrive
I wanna thrive not just survive
