

# Can't Get Enough

## Snow

I know in my heart and soul you are the one to fullfill all my needs  
And when I'm with you, don't wanna leave you  
And in the night time you're all that I dreamBecause I love, love  
I want, want  
I need, need  
Its gotta be love cuz I just can't get enough  
I want, want  
I need, need  
It's gotta be love cuz I just can't get enough  
She's got the love  
Everybody want's to know  
But it's me she want's to show  
Heartbreak no more  
As I found that special girl
