

# We Become

## Austra

I wouldn't hide this feeling  
A coward's crown - please raise it high  
I couldn't stop the warning  
Split like a lip on top of mine  
I wouldn't leave you in the sunlight  
I wouldn't keep you in the sun's eye  
Keep us lying  
If there's a meaning I will say it all again  
You wouldn't call my name  
It's always been the same  
It's true your eyes don't look at me  
I couldn't tell you if I knew it or not  
It could be islands  
It could be better!  
Who can have this feeling?  
A coward's crown - please raise it high  
I could hold off in the morning  
Growing bolder in the night  
I wouldn't leave you in the sunlight  
I wouldn't keep you in the sun's eye  
You wouldn't call my name  
It's always been the same  
It's true your eyes don't look at me  
I couldn't tell you if I knew it or not  
It could be islands  
It could be better!
