Carry Me

Audrey Assad

Pain is a forest we all get lost in Between the branches hope can be so hard to see And in the darkness we've all got questions We're all just trying to make sense out of suffering butYou say I am blessed because of this So, I choose to believe As I carry this cross, You'll carry me Help me believe itFear is a current we all get caught in And in its motion faith can be so hard to find And we all falter 'cause we're all broken We're all just trying to turn the shadows into light but You get glory in the midst of this And You're walking with me And you say I am blessed because of this So, I choose to believe As I carry this cross, You'll carry meAnd I know Your promises are faithful And God, I've seen Your goodness in my life And oh, I've found Your mercy is a river Your love is an ocean wideYou say I am blessed because of this You get glory in the midst of this And You're walking with me And You say I am blessed because of this So, I choose to believe As I carry this cross, as I carry this cross 'Cause as I carry this cross, You'll carry meYou'll carry me, God You'll carry me And Your love is an ocean wide
