

# Heart of Stone

[IKO](#)

Can you keep a secret?  
Will it hold your hand  
Among the flames?  
Honey, you're a shipwreck  
With your heart of stone Can I get a witness  
To the bruises and  
The wasted tears  
You could dry a river  
With your heart of stone  
With your heart of stone  
I can breathe  
I can breathe water, water  
I can breathe  
I can breathe water, water When you're here with me  
You're not here with me Can I pry your finger  
From everything I  
I say and do  
And I just can't forget you  
And your heart of stone  
I can breathe  
I can breathe water, water  
I can breathe  
I can breathe water, water  
I can breathe  
I can breathe water, water  
I can breathe  
I can breathe water When you're here with me  
You're not here with me
