

# Go to Bed Mad (feat. Tyrese)

## Monica

I think you're wrong you think your right; and all that equals up to is a fight  
Let's compromise before we go to bed tonight  
Cause if the fight don't die before the sun rise  
we may wake up on the wrong side, lets not go to bed mad tonight {Monica}  
Time is ticking, my eyes are getting heavy but I know we got to squash this  
So boy what's poppin its time for dropping, copping attitudes right now  
It's not for nothing cause this aint nothing, don't you know that I love you  
Its hard to stop and think about it, you will see its stupid Argue about things so critical  
And get heated over nothing  
And just hang up the phone  
See I won't wanna talk in the morning  
See we need a resolution like that Aaliyah song  
I think you're wrong you think your right; and all that equals up to is a fight  
Let's compromise before we go to bed tonight  
Cause if the fight don't die before the sun rise  
we may wake up on the wrong side, lets not go to bed mad tonight {Tyrese}  
What time is it? Im not on a mission to stay up with you all night  
It makes me so sick to my stomach every time we argue and fight  
I mean it girl my head gets light, this just aint right  
Im feed right up please its two fifteen in the morning, there is no need baby Argue about things  
that are not critical  
{And get heated over nothing }  
And just hang up the phone {oh I wont }  
See I won't wanna talk in the morning  
{See we need a resolution like that Aaliyah song} I think you're wrong you think your right; and  
all that equals up to is a fight  
Let's compromise before we go to bed tonight  
Cause if the fight don't die before the sun rise  
we may wake up on the wrong side, lets not go to bed mad tonight {Tyrese}  
Im not trying to be mad at you, why you make me not wanna fool with you  
Can't you see im tired girl  
{Monica}

Besides the fact that its quarter past two a girl like me got things to do  
So lets see each others point of view I think you're wrong you think your right; and all that  
equals up to is a fight  
Let's compromise before we go to bed tonight  
Cause if the fight don't die before the sun rise  
we may wake up on the wrong side, lets not go to bed mad tonight I think you're wrong you  
think your right; and all that equals up to is a fight  
Let's compromise before we go to bed tonight  
Cause if the fight don't die before the sun rise  
we may wake up on the wrong side, lets not go to bed mad tonight I think you're wrong you

think your right; and all that equals up to is a fight  
Let's compromise before we go to bed tonight  
Cause if the fight don't die before the sun rise  
we may wake up on the wrong side, lets not go to bed mad tonightI just wanna love ya babe  
I place no one above ya babe  
You're the only one for me  
Lets not argue my baby  
Everything I want and need  
You're my baby come and take my hand  
I got you babe  
let me be the man you want in your life baby
