

# Company

## America

Some can see it's poetry  
Come as you are in your broken car  
The companyCarousel is wishing well  
As a wonder night that spoke delight  
To the companyCan you hear the summer calling you  
    Can you hear him call you now  
    Can you hear the summer calling you  
    Can you hear him call you now  
    Broken dream, just a token scheme  
    Silver man with a telegram  
For the companyScalding blue, come talk to you  
    Search the cave for the grave  
Of the companyCan you hear the summer calling you  
    Can you hear him call you now  
    Can you hear the summer calling you  
Can you hear him call you nowCan you hear the summer calling you  
    Can you hear him call you now  
    Can you hear the summer calling you  
    Can you hear him call you now  
    Can you hear the summer calling you  
    Can you hear him call you now  
    Can you hear the summer calling you  
    Can you hear him call you now
