He played a song

FilledWith sadnessI believed him

Even though

We're strippin'

With madnessI could see it

We were lost

In the music

Everyone knew itTruth

Was in the air

Tonight

I could see

All the faces

They thought The same

Won't you please

Play me a song

About heartache

I promiseI can sing

Every word

Play me a song

About love lost

That's another one

Everyone's heard

Strike up the band

We can have

The whole world

(Mr. Piano Man)

He was going

For hours

People

Crying showers

No one ever really

Telled how it is

I sang

About hopeless

Cause everyone

Knows it, knows it

And it was

So honest Finally breathing Some clean air Been through it And seen there I put my star To fame Now the spotlight Was faiding He just kept On playing Play me a song About heartache I promise I can sing Every word Play me a song About love lost That's another one Everyone's heard Strike up the band We can have The whole world Singing tonight (Mr. Piano Man) Play a song for us (Mr. Piano Man) Play a song for love (Mr. Piano Man) Play a song for us (Mr. Piano Man) Play a song for love (Mr. Piano Man)
