

# The Breaker

## Little Big Town

Like to call you up right now and see how you're doing  
But I don't wanna hurt you anymore so I'll leave you alone  
I could tell by the look on your face, you didn't see it coming  
I was trying to do what's best, but damn if don't feel wrong I shot the stars out of your sky  
Took the love right from your eyes  
And I did it all knowing you thought I  
Was the hero of your heart  
But I turned out to be the breaker  
I wish I could give you what you needed  
But you can't tell a heart how to feel, but I tried to  
And I made you a promise with no way to keep it  
What kills me the most  
I'd still do anything for you I shot the stars out of your sky  
Took the love right from your eyes  
And I did it all knowing you thought I  
Was the hero of your heart  
But I turned out to be the breaker  
I shot the stars out of your sky  
Took the love right from your eyes  
And I did it all knowing you thought I  
Was the hero of your heart  
But I'll forever be the breaker
