

Dominos

The Big Pink

These girls fall like dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos As soon as I love her it's been too long
Talks of future with you caves me in
Swallow my sugar kiss and eat it alone
Hearts collide and smash any dreams of love These girls fall like dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos, dominos
Three words we shared - said too early on
Stuck with forever to the point of tears
Swimming with the fear where we slowly drown
Ending at never arching melody As soon I love her it's been too long.
And I really love breaking your heart
These silver apples will shine on I was wrong
The hottest love has the coldest end These girls fall like dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos, dominos
Dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos
These girls fall like dominos, dominos
