

Don't Leave (feat. Ellie Goulding)

Seven Lions

Baby, I promise I try to let this go
But I can't breathe
If only you knew how much I give you everything
You need
So in the space and time around us to waste Baby I think I'm losing you I can see it in your
faceDon't leave
Don't leave
I need you
And I need you
And I, And I, need you
'Cause lately you've been the world to me
I need you
'Cause lately you've got the best of meFall apart, fall apart, fall apartDon't leave
Don't leaveI promise I try to let this go
But I can't breathe
If only you knew how much I give you everything
You need
So in the space and time around us to waste Baby I think I'm losing you I can see it in your face
Don't leave
Don't leave
I need you
And I need you
I need youFall apart, fall apart, fall apartDon't leave
Don't leave
