

# Never Felt a Love Like This (feat. Dotan)

## Galantis & Hook N Sling

I was lost in love that was built to lose  
I know, I know all the nights I would lie  
Try to hide the truth Got so scared to be lonely  
But scared of something new  
Pain and darkness around me  
I see a light in you All I, all I know I never felt a love like this (Yeah)  
All I, all I know I never felt a love like this  
And it's keeping me awake  
I haven't slept for days (Yeah)  
All I, all I know I never felt a love like this  
A love like, love like this  
Say goodbye to the past, it's a victory  
And I, and I feel the start of a rush taking over me Got so scared to be lonely  
But scared of something new  
Pain and darkness around me  
I see a light in you  
All I, all I know I never felt a love like this (Yeah)  
All I, all I know I never felt a love like this  
And it's keeping me awake  
I haven't slept for days (Yeah)  
All I, all I know I never felt a love like this  
A love like, love like this All I, all I know I never felt a love like this (Yeah)  
All I, all I know I never felt a love like this  
A love like, love like this
