

To the Top

Twin Shadow

I know it's not the right time tonight
But I won't move until this stops
Go back to the top
Back to the top
You never belonged to me Now I can see the light
That you are
Never good at controlling me
Now I can see the light
Shining, whole
And I know, I know it was blinding you
Say, life can be long
Wanna know, wanna know, wanna know
Wanna know it's true
When you say
You gotta get me to hear you
I know it's not the right time tonight
But I won't move until this stops
Go back to the top Back to the top
I'm not scared if you run to me
Lost like when you were mine
And you continue to run from me
Just offer me your time Stay, life can be long
Wanna know, wanna know, wanna know
Wanna know it's true
When you say
I want you around
You gotta make me believe you
Ooooooh
I know it's not the right time tonight
But I won't move until this stops
Go back to the top
Back to the top
Ooooooh
I know it's not the right time tonight
But I won't move until this stops
Go back to the top
Back to the top
Ooooooh
I know it's not the right time tonight
But I won't move until this stops
Go back to the top

Back to the top
