

# Our Love (Solomun Remix)

## Editors

All eyes on you now  
the cigarette burning, the taste of  
ash in your mouth  
I understand, I understand  
This ain't a dream, it's your world  
caving  
in (I always knew) Strange clouds I'm under  
waiting from nothing,  
now you've got  
no place to hide  
Our love is a moment  
in time I always knew  
you'd get the feeling that's right  
Get the feeling  
that's right  
oh get the feeling that's right  
(I always knew)  
(I always knew)  
(I always I always, I always knew)  
Don't stop believing  
jump in the setting  
hide the voices  
Our love in a moment in time I always knew we'd get the feeling  
that's right Get the feeling that's right  
oh, get the feeling that's right  
jump in the setting  
to get a feeling that's right  
oh streetlights illuminate feeling  
ooh, red sky, just don't stop believing  
ooh streetlight illuminate feeling ooh  
red skies just don't stop believing (I always knew)  
(I always I always I always knew)  
All eyes on you know  
The cigarette burning, the taste of ash  
in your mouth  
I understand, I understand  
This ain't a dream, it's your world caving  
in  
Don't stop believing  
Don't stop believing  
Don't stop  
Don't stop

Don't stop believing  
don't stop believing  
don't stop  
don't stop  
don't stop believing  
don't stop believing  
don't stop  
don't stop
