

I Just Want It All

Kid Ink

I-I-I just want it all
Money and the cars right
I don't wear a tie but they say I live a boss life
I-I-Just want it all
Pullin a bad bitch, way back then
Thought that we would never have this
I just want it all all all all all I just want it all, high above the law
Kill them so cool you can call me Mr. Frost
Come and find me where the money is, ever feeling lost?
I just wanna ball so sick of playin toss
I remember back then I had a dream since then
I've been sleep walking all-all-all the ups and downs I was sea-sawing
Only made me strong like steroids
Game time I just served these niggas like a bell boy
Tell them that it's over (over)
Finito
I can make it bump bump bump like a mosquito
It's just all in my stylo (stee-lo)
And my pockets are the only thing bigger than my ego. I-I-I just want it all
Money and the cars right
I don't wear a tie but they say I live a boss life
I-I-Just want it all
Pullin a bad bitch, way back then Thought that we would never have this
I just want it all all all all all I don't wanna stall, I would never leave means
I don't wanna fall, no matter the cost
I-I-I'm all in till the coffin
Kush coughin nicer than your concience
Finally everywhere u wanna be moving high velocity
Driving irresponsibly but I think u should come
And take a ride see the world through my eyes
Everyday is a surprise
So I party like my birthday
LA is my birthplace
First place, west side loud as a I wanna be
There's sleeping on me, now they are in the fetal
Yeah I'm nito everythings in tuxedo. I-I-I just want it all
Money and the cars right
I don't wear a tie but they say I live a boss life
I-I-Just want it all
Pullin a bad bitch, way back then
Thought that we would never have this
I just want it all ALL all ALL all

I just want it all, I-I want it all
I just want it all, it all
I deserve it all, We been working hard
You ain't got to give it to me, I'll take it from y'all
