

# The Way She Moves

## Forever the Sickest Kids

It's getting late, your eyes are closed  
And mine are wide awake, but still,  
I can never go on, I can never go on like just like  
I'm begging just to see your eyes again  
I can never go on (I can never go on)  
Should I even care that you didn't say anything  
I tried to do my best, should've given her better things  
Like rings... and roses... Never do reply when I hint the message  
I try to smell my best with a bottle of essence  
Getting to the point with style and romance  
And I could never go on, I could never go on

[Chorus:]

The way she moves away, oh  
I wanted her to stay awhile don't go away, oh  
The way she moves away, oh  
I wanted her to stay awhile don't go away, oh oh Huh, she's showing signs of motion as she  
wipes the sleep away  
I can get through this, I can get through this ride  
You gotta give a little, but it takes a lot to get over you  
Cause it makes no sense to be permanent  
If you're not feeling it, right? Right, right! The way she moves away, oh  
I wanted her to stay awhile don't go away, oh  
The way she moves away, oh  
I wanted her to stay awhile don't go away, oh oh  
It's a terrible thing, to know what you want  
And to know you can't have it at all  
I wanted was to let you know how I... it's a terrible thing  
It's a terrible, it's a terrible thing, oh  
A terrible, a terrible thing, oh yeah! The way she moves away, oh  
I wanted her to stay awhile don't go away, oh  
The way she moves away, oh  
I wanted her to stay awhile don't go away, oh oh  
The way she moves  
The way she moves  
The way she moves  
The way she moves
