

It's All Over (Duet with Dionne Warwick)

Blue System, Dionne Warwick & Dieter Bohlen

I just can't hide my feelings
It's just the way I am
This love has such a meaning
We'll make it if we can
Tell me baby where did we go wrong
Sooner or later we'll end up on our own
It's all over all over all over again
You said to me sorry can't we just be friends
It's all over all over it happened again
No time to ignore it we'll come we'll come to the end
Is it all over all over again? Tomorrow is forever
Love is a sacrifice
There'll never be a never
Halfway to paradise
Tell me baby why you'll say goodbye
Just for the maybe let's give it just one more try
It's not over baby oh yeah not over again
It's all over all over again
You said to me sorry can't we just be friends
It's all over all over just look what you've done
Oh sooner or later we're all alone
Yeah we're all alone
Not over baby oh not over again oh it's all over
