

# Fairy Dust

Tove Lo

[Instrumental]Where did the pain come from?  
When everything's so shiny and beautiful...  
Nobody knows me  
I'm falling right back into my dark hole  
And never felt more safe  
All the crazy shit that we did  
There's nothing pure about the way we do things  
What's your line, though?  
That I'm fine, oh  
Heard that before  
No one expects anything from here  
I'm free
