

Where the Lines Overlap

Paramore

Give me attention
I need it now
Too much distance
To measure it out - out loud
Tracing patterns across a personal map and
Making pictures where the lines overlap
Where the lines overlap No one is as lucky as us
We're not at the end but we already won
No one is as lucky as us
Is as lucky as us
Call me over, and tell me how
Well you got so far
Never making a single sound
I'm not used to it
But I can learn
There's nothing to it
I've never been happier
Never been happier No one is as lucky as us
We're not at the end but we already won
No one is as lucky as us
Is as lucky as us Now I've got a feeling if I sang this loud enough
You would sing it back to me
I've got a feeling if I sang this loud enough
You would sing it back to me
I've got a feeling
I've got a feeling
That you would sing it back to me
That you would sing it back to me
No one is as lucky as us
We're not at the end but we already won
No one is as lucky as us
Is as lucky as us
Is as lucky as us
