

Where Is Our Love Song (feat. Gary Clark Jr.)

Stevie Wonder

Where is, where is, our love song?
Where is, where is, our love song?
Where is, where is, our love song?
Where is, where is, where is our love song? Where is our song of love?
Where is our song of love?
Another love song between you and me
But a song of love for all humanity
Where is our love song?
Our desperately needed song of love Where are our words with hope?
Oh how we need those words of hope
Not the kind of hope that leaves some of us behind
But the kind of hope that lifts up all humankind
Where are our hope words?
Our desperately needed words of hope
Where is, where is, our love song?
Where is, where is, our love song?
Where is, where is, our love song?
Where is, where is, our love song? Guess the words we're singing
We'll have to sing them forevermore, yeah
'Cause by our ways and actions
It's like you never heard them said before Where is our prayer for peace
The prayer so long we yearn to release
Not just on this urban bloodstained street
But in every war-torn country
Where hate, vain, and killing feast
Where is our peace prayer?
Our desperately needed prayer for peace
Where is, where is, our love song?
Where is, where is, our love song?
Where is, where is, our love song?
Where is, where is, our love song? Not a love song between you and I
But a song that will test the universe to the Heaven's eye
Where is our love song?
Our desperately needed song of love Where is, where is, our love song? (Ohh)
Where is, where is, our love song? (In peace)
Where is, where is, our love song? (And me)
Where is, where is, our love song? (for them)
Where is, where is, our love song? (In our)
Where is, where is, our love song? (Do do do doo)
