

# Reggie Jax

## Public Enemy

I never tried to pretend to have an  
Accent that I never had  
So why don't you stay away awhile  
Come hear the freestyle  
The quicker the sticks  
With the guitar licks  
Complete the beat for your feet  
Check out the drum kick  
I'm here to live for the love of my people  
Kickin' it all about rebuildin' so all the children  
Avoid the self destruction  
So long I'm gonna do y'all a favor  
Cause I got the flavor yea  
Get low not high you can't deny  
Homeboys and girls you'll testify  
The p-e-f-u-n and the K will stay  
And make your body sway cause we got  
The funky beat on the street on your feet  
Can you feel the heat in your mind all the time  
You don't have to find the effect of the  
Rhythm an the funky rhyme on your body  
On your gear so have no fear in your hair  
Everywhere if you dare take this never  
Miss that funky list of super rockin' cuts  
That you can't resist on the move make ya  
Groove prove that we choose our cuts  
Make you strut and shake your but  
Bend your back get the knack of the  
Funk attack  
Yes, yes y'all take that
