

Don't Waste My Time

Status Quo

You spend my money
You drink my best red wine
You think it's funny
To see me all the time
Sitting with my head hanging down
Treating me just like a clown
You spend my money
But come on, honey, don't waste my time
When you get older
You'll see what you have done
You hung on my shoulder
And loved me just for fun
But some day when I'm older too
I'm gonna come and make fool out of you
You spend my money and honey
You sure did waste my time
You spend my money
You drink my best red wine
You think it's funny
To see me all the time
Sitting with my head hanging down
Treating me like a clown
You spend my money
Come on, honey, don't waste my time
