

# We Found Love (feat. Ashibah)

Nora En Pure

Right here is always good with you  
I know that, right here  
You took away my blues Do you remember when  
We lost our innocence?  
If we rewinded I know I  
Wouldn't change a thing We found real love on these streets  
Hold on, don't ever let go  
And keep your eyes on me  
We found real love on these streets  
(Love on, love on)  
Come on, your love  
Your love is all I really need  
Do you remember when  
We lost our innocence  
If we rewinded I know I  
Wouldn't change a thing I'm where I'm supposed to be  
Promise you'll stay with me  
Whenever you're close to me  
I'm losing my gravity Oh we can stay here  
We found real love on these streets  
(Love on, love on)  
Hold on, don't ever let go  
And keep your eyes on me  
We found real love on these streets  
(Love on, love on)  
Come on, your love  
Your love is all I really need  
(Love on, love on)
