

# Whiskey and You

Darius Rucker

Always there  
When my world starts closing in  
Something to hold  
No matter how long it's been  
Gets me high  
Then knocks me to the ground  
Soothes my mind  
And then begins to break me down(Chorus)  
Whiskey and you  
Ain't nothing I can do  
But come crawling back to  
Whiskey and you  
I never asked you to love me  
I never begged you to stay  
But I never want you to leave me  
I wouldn't have it any other wayRepeat ChorusAs darkness finds the candle  
And the flame stops flickering  
Girl I know and I hope  
It won't be too long  
'Til we light it up againRepeat Chorus  
Whiskey and you  
There ain't nothing, there ain't nothing I can do  
But I keep crawling, I keep coming back to  
Whiskey and you
